Dear Partners,

- **NZSA Appointed Actuaries Forum** - *highly successful forum with 60 key influencers*

Each of the three events will take place in Auckland CBD, at the Mövenpick Hotel.

We would like to invite you to partner with us to showcase your organisation to our members and delegates. The events will bring together professionals from the actuarial community, industry, regulators and government, and will provide an invaluable opportunity for networking and professional development. Each event will feature respected industry speakers presenting on key issues and opportunities facing the insurance industries.

As our partner for these events, your company will have the unique opportunity to showcase your brand to a targeted audience of industry leaders, decision-makers, and potential clients.

We offer a range of partnership packages to suit your marketing objectives and budget.

Appointed Actuaries Forum - One day event

The Appointed Actuaries Forum is the pinnacle of engagement for Appointed Actuaries and their delegates for the industry's 87 licensed New Zealand insurers, and the actuarial teams and industry players that support them. In addition, we will be designing the day for industry bodies, regulators and insurance executives and directors to present issues and challenges, outlining obligations and working relationships across a range of areas, and how together the industry can work effectively with AAs to identify risk, and meet organisational solvency and capital positions, and comply with best practice customer focus, conduct and legislative requirements.

Financial Services and General Insurance Forums

We are expecting between 80-100 people from across the General Insurance industry to attend the GI Forum and 80-100 from the Life and Health insurance industry to attend the Financial Services Forum. These events are run every two years, and will feature a range of industry specific trends, issues and opportunities. They will harness collective thought from key decision makers across New Zealand as well as senior industry leaders, chief actuaries and actuarial teams.
