

Purpose

- Provide a forum for discussion of interests, ideas and concerns as actuaries relating to the wider public sector;
- Support the use of longer-term, statistical, and financial perspectives and methodologies that add value in the public sector;
- Support the Society's external relations objectives, as they relate to the public sector;
- Increase Members' awareness of the New Zealand public sector and opportunities for actuaries in the New Zealand public sector;
- Support the educational and professional development needs of actuaries, working or interested in the public sector, including through CPD.

Scope

- Consider, comment or make submissions, where relevant, on consultative documents released by Government and other bodies.
- Provide Members with opportunities to improve their understanding of the New Zealand public sector.
- The scope does not include roles covered by the following Society Committees.
 - Insurance committee liaison with RBNZ;
 - Retirement Income Interest Group;
 - Climate Change Interest Group.The PSIG will liaise with these Committees.
- Stay aware of international developments on relevant public sector issues.
